## What is your favorite part about being a student athlete?

I love the intensity and the competition. I really enjoy pushing myself to the edge and really seeing what I am capable of achieving both physically and mentally. I also really love my team and all of the awesome friendships I have made with the girls.

## What is your most memorable moment at Oregon State?

Going to the NCAA tournament last season and traveling through Ohio and Michigan for two weeks. Our team made history by even making it past the first round, but to end up in the Sweet 16 was pretty special. It was an amazing experience that I will never forget.

## Do you have any hidden talents?

I sang in choir for 7 years.

## What is your favorite color? Food?

I really like bright neon colors! And I'm a total coffee addict, since I used to work at Starbucks. But my favorite food is Mexican... Growing up in Southern California, I didn't really have a choice.

## What advice would you give to kids that want to become a student athlete?

Set your goals high and dream big. If you want to be a collegiate athlete, you can do it, it's possible. But don't think that it will be easy... You have to work harder than you ever thought possible. You have to train outside of practice. Workout on the weekends. Take every extra step possible so that you can set yourself above the thousands of other athletes competing with you to earn a spot on a collegiate team. And be aggressive. Get in contact with coaches and let them know you're out there and you're interested in playing for their program... The coaches most likely won't come to you. You have to work to get noticed. But most importantly, don't give up!
